

I recently heard that my favorite station, 100.1 klove, might be taken off air. That would be truely sad. This station is so good for this community. more people need to listen to it. it gives encouraging word and gives so much good information to help raise my child and to enrich my marriage. It is sad enough we have to pay for it on FM. all the rest of the stations have filth. That is why this world is how it is. Please do not take k love off the air.
